Say NO to CANCER! NO to Palmdale Power Plant

Petition summary and background	We the people of Palmdale, CA are concerned with: 1. The potential risks of Cancer, Heart Failure, Respiratory failure and Asthma related illnesses that are revealed in the EPA and the CA EPA reports as health risk caused by the pollution from Power Plants. 2. The potential injury and loss of life due to the plan to install a 36" high pressured gas line under the city on the San Andreas Fault from Avenue S to Avenue M. In the event of an earthquake, this line can rupture with injury and a high risk of death exists. 3. The visual pollution will extend 6 miles high causing low visibility 6 - 11 days into the air traffic and it will be visually unappealing. 4. The planning of the Power Plant and of the millions of dollars that have been thrown in to this project without our permission or full disclosure.
Action petitioned for	We, the undersigned, are concerned citizens and registered voters of Palmdale who urge our leaders to act now to stop the planning, construction, and to cancel all contracts related to the construction of a Palmdale Power plant. Do not build it.
